

This list is meant to make your life easier. If you do not have every single item on your list, you will likely survive, but this is a basic list of what we use during construction.

- ☐ (2) Jack stands
- ☐ 220v welder w/ shielding gas
- ☐ Air compressor / pneumatic tools
- ☐ Angle grinder/cutter
- ☐ Automotive lift (2 post preferred)
- ☐ Ball joint / u-joint press or kit
- ☐ Brass punch
- ☐ Combination wrenches metric and SAE
- ☐ Deadblow or plastic coated hammer
- ☐ Deadman ideal as backup lift support
- ☐ Drill bits / cutting oil
- ☐ Electric impact gun
- ☐ Electric or pneumatic and conventional ratchet
- ☐ Flare nut wrenches
- ☐ Floor jack
- ☐ Forklift, cherry picker or heavy table/cart on casters (to hang axle)
- ☐ Hose pick
- ☐ Magnetic lamp
- ☐ Oil drain and catch
- ☐ Panel popper
- ☐ Plasma cutter (preferred but not paramount)
- ☐ Pneumatic impact gun
- ☐ Ratchet straps
- ☐ Ratcheting wrenches
- ☐ Snap ring pliers (to replace ball joints)
- ☐ Socket, torx, hex bits sets
- ☐ Torque wrench
- ☐ Transmission jack
- ☐ Vice grips

- ☐ Anti-seize
- ☐ Black paint (we use RTA9303)
- ☐ Brake cleaner/degreaser
- ☐ Clear coat sealer (we use DA1692)
- ☐ Electrical tape
- ☐ Loctite or similar threadlocker
- ☐ Paint pen
- ☐ Rolocs
- ☐ Self etching primer (we use DAP1690)
- ☐ WD40 or PB blaster
